

## PUJOLS FAMILY FOUNDATION BATTER UP COOKING PROGRAM

### PUMPKIN PIE CHEESECAKE DIP

2 – 8 oz. packages cream cheese

1 – 8 oz. tub cool whip

1.5 cups pumpkin pie mix (NOT 100%  
pumpkin puree)

4-6 tablespoons caramel sauce

1. In a large bowl, use a hand mixer to beat the cream cheese until it is smooth and creamy.
2. Add the pumpkin pie mix and 3 tablespoons of caramel and mix again until well combined.
3. Fold in up to full 8-ounce container of cool whip. The more whipped topping you add, the fluffier the dip will be.
4. Cover and store in the refrigerator for at least 30 minutes until ready to serve.
5. Just before serving, drizzle caramel on top.
6. Serve with Nilla Wafers, ginger snaps, Graham crackers, pretzels, apples or anything else that you would like. The dip goes a long way, so you will need at least a couple of boxes of cookies or pretzels for a large gathering.
